The Institution of *Engineering and Technology* 4th International Conference on

Advances in Medical, Signal and Information Processing - MEDSIP 2008

14-16 July 2008 | Santa Margherita Ligure, Italy

Call for Papers now open.

Submission deadline: Friday, 15 February 2008

About the event

The MEDSIP 2008 technical programme will include both oral and poster presentations, as well as invited speakers.

This conference aims to bring together:

- **Academics:** Researchers, postgraduate researchers and research students
- **Healthcare workers:** Biomedical engineers, medical physicists, scientists, medical technicians and clinicians
- **Industrialists:** Design engineers and engineering managers

Topics include

The conference is organised primarily around seven special themes:

- Electrophysiology (electrocardiology and electroencephalography/electromyography)
- Critical / intensive care
- Medical imaging and image processing
- Non-linear signal processing
- Telemedicine and e-health
- Calibration and measurement analysis
- Emerging technologies

The organising committee invites contributions in any of the proposed topic areas above.

For more information on each topic area and to submit your paper, please visit our website.
